FRIDAY, JULY 29, 1864.

Loans on the Paper Dollar

Let us show the public a table of the value of landed property in the province of Buenos Ayres, the value of house property, the pastoral wealth of the country, and the imports and exports.

We take the following from the 'Registro Catastal,' published in 1863:—

9,6784 leagues of land, private property, valued at 1,441,000,000 dols.

Value of 4,770¼ leagues of public lands, which is estimated at the following rates, that is to say—

3,704¼ leagues in different partidos in the camp, the greater part of which is rented, at an average value of over 150,000 dollars a league, amounts to 146 millions and a half.

650 leagues in the partido of the Tandil, at 100,000 dollers, amount to 65 millions

353 leagues, that is to say, 650 in the Loberia, 1200 in Bahia Blanca, and 120 in Patagones. To these lands we assign no value, until the Ministry of War extends the frontier to the river Colorado.

The total exports of wool from 1862 to 1863, amounted to two millions and half arrobes from this province alone which, allowing on an average two and a half pounds for each arroba, makes 25 millions of sheep in this province, which at 30 dollars each amounts to 750 millions.

The export of cowhides, dry and salt, in the year 1862, amounted to 1,000,000, and taking this on an average at 10 per cent on the stock, the amount of horned cattle in this province is 10 millions of head, which at 80 dollars each amounts to 800 millions.

We leave on one side the amount of mares and horses in the camp, but we must be permitted to add, the official value of house property in this city, which is estimated at $1,607,700,000.

Furthermore, let us add, the official value taken from the statistical book of the Custom house for 1862, for imports and exports, which amounts to 812,800,000 dollars.

The grand total of the above figures is 5,000,000,0 0 dollars.

The 'Registro-Catastral' of St. Domingo-city states, that there are 9 cities and 32 towns in the province, besides other very valuable rural property; but there are no figures to show their value, so we refer the matter to a subscriber of the 'Tribuna.'

We admit, though it seems to us ridiculous, the total value of the province of Buenos Ayres, without including the private capitals, is 5,000,000,000 dollars; and let us make our argument upon this basis. We also admit also, for the sake of argument, that the paper money depreciates, and is not becoming less current. Now, let us see how much this depreciating of the paper money is costing Buenos Ayres.

In December 1859 and 1860, the ounces were worth 340 dols., to-day they are worth 466 dols. But we will admit what Mr. Antenor says, that the average value of the ounces is 400 dols: the depreciation, therefore, of the paper money is thirty per cent., and this depreciation costs the province of Buenos Ayres the enormous sum of 1,680,000,000 dols.

Furthermore, we will admit, for the sake of argument, that which our ponte financiers assert, namely, that the value of the Province of Buenos Ayres is only to be taken in respect of the value of the paper dollar; but then we must answer that if the depreciation is thirty per cent on the value of our lands, our stock, and all other property in the country, bears no proportion to the depreciation of the paper money.

The Government sells to-day the same public lands at the same prices as when the owners valued ounces at $34!. Sheep and cattle sell at the same price also, and taking the depreciation of paper money only at ten per cent. instead of thirty, the Province of Buenos Ayres has lost, from 18 to 1863, the enormous sum of 560 millions, that is to say double the amount of all the paper money in circulation.

Let those of the land of the paper dollar point out to us the signs of decadence which a certain party who holds a high post in the executive alluded to in pointing to the splendid palaces which are built in this city.

But the paper money is not becoming less current by the doctrine of Sor Buenos. We point to the table of figures above mentioned, and we ask the people in this land of paper dollars, if gold increases in value for the same causes which make cotton rise, is it a blasphemy of a set of pretended economists who read Chevalier Bastiati and other authors without comprehending one sentence, yet nevertheless they try to pass themselves off as Alexanders, and pretend to cut the Gordian knot, unable at the same time to wield the sword which Providence has placed in their hands.

We have been requested, instead of proving that the paper dollar is nothing more nor less than a printed slip, to attack the Government and legislators, who have been long asleep and incapable of doing anything, but we believe it a better plan to prove, in the most incontestible manner, not only that paper money is becoming less current, but also that the evil of our situation cannot be remedied by politics or plastery, but by sound, radical, energetic remedies.

We are told that we have raised a false alarm in the country, the paper dollar is no longer money, but we answer that we have not said half enough. We should shout in our loudest voice 'Look out! look out! the paper dollar is going to the d——l!!!'

With the figures that we have above given, it is not difficult to say that the paper money is becoming less current. Rather let us try out 'We are all rushing on to helpless bankruptcy.' It is not for nothing that

right, property valued at fifty thousand dollars. Some years ago while riding in her carriage, she was thrown violently to the pavement, and rendered insensible by the injuries which she sustained. The first man who reached her was black-nursery African. She took her to his mother's house, and when she was sufficiently revived conveyed her home in a carriage. Every day during which the lady remained an invalid, the black called at the door, inquiring after her health. He sent her delicate presents, and she accepted them. He proposed, and she accepted him. They were married, bought a house, and, although living under one roof, have ever kept to their separate apartments. "Not unfrequently they walk arm in arm through the streets. She still moves in the original social sphere; he moves in his. The facts of the case are patent to all who know her; nor does she ever attempt their concealment." Perhaps it was gratitude which led her to contract the no mixed marriage; perhaps it was love, or love. We only have the result, while the reason is hidden. Certainly the affair does not come under the head of Miscegenation but rather under that which Dr. Johnson used to call the anfractuosities of theluman mind. "None but who know not the lady pretend to censure t or conduct," although many of her acquaintances, indeed the great majority of them, may reasonably be suspected of a loathing for the vile theory referred to.

This is reducing the amalgamation theory to practice with a vengeance. It is not perhaps so extraordinary that out of a million of people two woman could be found with tastes so depraved as to accept negro husbands, but that they should be woven of wealth and refinement, and their conduct be approved by their acquaintances that is astonishing. It is thus that the preaching of abolitionism and negro equality is having its effect in certain circles, and the natural consequence of the whole to the negro race has given place in Republican communities, to a sentimental regard for them. Even this letter, writer throws no fire of censure over the facts he gives, to make their subject matter palatable to the readers of the Republican Press, and so become one of the more radical Republicans leading the way, while those who call themselves conservatives, while vowing they will never consent, eventually consenting.

Captain Hanham's Yacht Themis

One of the most interesting events of the day is the arrival of Captain Hanhan in his yacht 'Themis,' on a voyage of pleasure, bound for the Pacific through the Straits of Magellan. We had the honor, yesterday, of a visit from the noble and gallant navigator, who gave us an interesting account of his cruise.

The Themis was formerly called the Titania, built by Mr. Scott Russell, and renowned for her race with the Yankee clipper-yacht America, in which the latter gained the championship of all the seas, although the Titania ran quicker before the wind, and beat, and tacking. This beautiful yacht is 150 tons burthen, and 134 feet draught, carrying 4 guns and a crew of 18 men. The owner is a scion of an old English family, being brother to Sir William Hanham, and himself a magistrate for Dorsetshire, where he has his family seat, Menston Hall. He is a Captain of the English navy, and saw service at Acre, A. D. 1840; his lady travels along with him in his adventurous career, and his chief officer is an ex-lieutenant of the navy. Captain Hanham is a member of the Westof Ireland yachting club, and his present cruise is regarded with great interest in England, being the first attempt to take a yacht through the Straits of Magellan. He has already explored all the nooks and corners of the Mediterranean, Levant, and German Ocean, and now wishes his present voyage in a book "Round the World to the Sandwich Islands."

On April 7th the Themis sailed from Falmouth, and after 4 days arrived at Madeira, where she stopped two days. She then set out for Teneriffe and stayed three days, at length reaching Rio Janeiro on the 42nd day, being a very fine passage (37 days). The Brazilian authorities showed every attention to the gallant captain, and placed the dock-yard at his disposal; they sent men to unbend his sails and make slight repairs, and after remaining in dock 12 days, would not receive a dollar in payment. . Nay, the Emperor Dom Pedro, quite regardful of the rupture of diplomatic relations, came to visit the English voyager on board his yacht. Captain Hanham speaks highly of his Majesty, who appeared in a most great practical sense, knew Mr Scott Russell well by repute, and talked English fluently. When Captain Hanham was returning on shore, the Themis hoisted the Brazilian flag at the topmast and saluted him with 21 guns.

Admiral Chagneau and the French officers were no less attentive to the little visitor, and offered every service to the commander, who is much impressed with the rest, not affected, kindness of the French. It is needless to say that the British naval officers were equally ready in friendly offices; Captain Curlewis lent Captain Hanham his charts.

On the 2nd the Themis unfurled

sail and the French Admiral came in her as far as the Sugar-loaf to pay his adieus to Captain and Mrs. Hanham, and when leaving was saluted with 14 guns. The yacht encountered two severe pamperos before reaching Montevideo, but shipped not a bucketful of water, being more lucky than the Mercury. The owner would not suffer any pilot to come aboard, as he navigates in person by the aid of charts. Arriving at Montevideo, the authorities, who were apprised of his coming, notified to him that he might anchor wherever he chose. Some American captains came to visit him, and he detained them for dinner, after which on their departure he hoisted the stars and stripes and fired off five guns. This circumstance is what gave rise to an incorrect version of the matter, mentioned in this paper a few days ago. The Captain of the Port came to inform him that salutes were given only to vessels belonging to the state of war. Captain Hanham professed his ignorance, and offered to pay any fine, but the authorities refused to accept any money, and flattered by his visit. We regret that the Themis did not stop many days in Rio Janeiro, having left last evening.

Capt. Hanham goes through Magellan's Straits to Valparaiso, Callao, and Panama, thence to Sandwich Islands Marquesas, and Tahiti, making a round trip of the Pacific, and returning by Cape Horn to the beginning of 1865. The Captain has some friends in B. Ayres, and pays a flying visit to Paraguay. We wish him a pleasant voyage and safe return.

THE NEW BRAZILIAN LINE.

We are informed on the very best authority that the proposed line of Steamers between Europe and Rio Janeiro has passed both Houses of Congress in the United States, and now only awaits the sanction of the President to become a law. This line is not, however, Mr. Hopkins' scheme, but that of some leading Boston merchants. It is proposed to establish it will be of the greatest benefit to Buenos Ayres as part of the project is to run a smaller steamer from Rio to the River Plate.

The United States Government agrees to subsidize the proposed line to the extent of $150,000 per annum provided the Brazilian Government gives a like sum, which we are told the Brazilian Minister has already promised.

Passengers left per Mercor

Southampton—Mr. Geo. Cramer, Miss Roche and child, Sir H W Becher, T H Hall, Henry Simkins. Theodore Kuhler

Lisbon—D. Manuel V Lopez, Alfredo Gohring

Pernambuco—Mr. K Grosey

Rio Janeiro—Edward Anspich, Belgian chargé d'affaires, Maximo Achaval.

Dec. 31st	14,000	" 28 60
Total sales, 48,377.		

We noticed the other day a growing tightness in specie; but it was not by any means sensibly felt. Paper money is very abundant, but foreign coin is said to be scarce, and causes have been alleged to explain the fact. One of the merchants' clerks attributed it to the Government having commenced buying the market indeed, it has been said, with much truth, that the money to meet these loans was taken out of the market for exterior to be of any real benefit. No doubt, people say that the money is taken off the market for a few days, and returns almost immediately; but although this seems so in theory, it is far from being the fact. The specie which is taken off the market does only partially come back, and the consequence is, that although the amount unreturned for one month is insignificant, still at the end of three or four months these insignificant defi cits begin to tell up.

We do not wish to enter into the private details of any man's business, but a loan to a Government is a matter of public importance, and, we are compelled to say, that to our mind the tightness in the specie market is solely attributable to the shifts which the borrowers of the loan are obliged to resort to, to raise the necessary amount. People must be wilfully blind if they cannot see that raising money by means of pagares, or even bills of exchange, to pay over to the Government, must necessarily have an effect, and a serious effect, on the money market, the lenders must take the money from their own friends or customers, to oblige the Government; and this, we hold, is what is now going on in our market.

We condemn the Finance Minister who borrows in his own market, where floating capitals are so scarce; he should have foreseen the inevitable consequences of such a step. We condemn the makers of such a loan, unless they counted upon receiving the necessary amount from a foreign market. We say that the money goes in at the Government House and comes out on the Bolsa, in a never ceasing flow. We condemn the Finance Minister who borrows in his own market, where floating capitals are so scarce; he should have foreseen the inevitable consequences of such a step. We condemn the makers of such a loan, unless they counted upon receiving the necessary amount from a foreign market. We say that the money goes in at the Government House and comes out on the Bolsa, in a never ceasing flow. We condemn the system of the first business houses in Europe, as the best guarantee for the value likely to be offered to the borrowers.

The Camp Department will be supplied with an assortment of the very best goods.

The capital of the Company shall be invested only in landed property (fincas) and With the greatest secrecy.

The Board of Inspection, composed of subscribers, shall have charge of all the operations of the Company.

Subscriptions in Paper Money.

The Directors, wishing to enlarge the operations of the Society, have acceded to the request of many people in this city, and determined to issue shares payable in Paper Money of Buenos Ayres, under the following conditions:—

Article 60—From the 1st of April, 1864, shares shall be issued to such persons as may wish to pay in Paper Money of Buenos Ayres, and in accordance with Article 17 chapter 3 of the Statutes of the Society the lowest sum received shall be $200 annually, payable in one sum, or in instalments, subject to the following rules:

1st.—For Paper Money Subscribers sections will be opened and kept separate from Silver Money Subscribers.

2nd.—The liquidation of the sums belonging to the sections of Paper Money Subscribers will be administered according to Article 31 of the Statutes, and for account of these particular sections.

By these means the Directory hopes to gain its object, which is to enable the poorer classes to enjoy all the advantages of the Society.

For further particulars, apply at the Co's Office, No. 87 Calle S. Martin (altos), where prospectuses and circulars may be had.

SAVINGS BANK.

BANK MAUA & CO.,

No. 103 Calle de Cangallo,
BUENOS AYRES.

The immense advantages of Accounts Current are now so generally felt and appreciated in the two great cosmopolitan cities of the River Plate, Montevideo and Buenos Ayres that these are very few Merchants who fail to keep one at the Bank to which they place the most confidence. The Bank of Maua and Co. in Montevideo has already provided for the working classes in that city a safe and profitable depository for their savings.

The sums deposited in that most important institution are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clerks, artizans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus preventing themselves with a reserve fund for an unforseen sickness, old age, instead of spending them in the immoral gambling, in lotteries, and other frivolities.

The Bank of Maua and Co. of this city, following the noble example of their firm in Montevideo, now offer the same facilities to this city, and will open a Savings Bank at No. 103 Calle Cangallo, from 9AM. till Three p.m. on Week Day, and on Sundays, and Holidays from Ten a.m. to Twelve noon, the depositors will be entitled every quarter on account current, according to the rules established by the Bank.

Fifth—In case the depositor loses his pass book, it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.

The Bank receives at interest any sum from Twenty-five Dollars currency to such further sum as the above facilities to this city, and will open a Savings Book at No. 103 Calle Cangallo, from 9AM. till Three p.m. on Week Day, and on Sundays, and Holidays from Ten a.m. to Twelve noon, the depositors will be entitled every quarter on account current, according to the rules established by the Bank.

Fifth—In case the depositor loses his pass book, it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.

The Bank of Maua and Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres, and will open a Savings Book at No. 103 Calle Cangallo, from 9AM. till Three p.m. on Week Day, and on Sundays, and Holidays from Ten a.m. to Twelve noon, the depositors will be entitled every quarter on account current, according to the rules established by the Bank.

Buenos Ayres, September 12, 1863.

P.p. Maua and Co.
WILLIAM LESLIE

CONDITIONS.

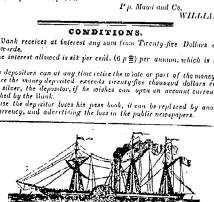
First—The Bank receives at interest any sum from Twenty-five Dollars currency to such further sum as the above facilities to this city, and will open a Savings Book at No. 103 Calle Cangallo, from 9AM. till Three p.m. on Week Day, and on Sundays, and Holidays from Ten a.m. to Twelve noon, the depositors will be entitled every quarter on account current, according to the rules established by the Bank.

Second—The interest allowed is six per cent. (6 p $) per annum, which is liquidated every six months.

Third—The depositors can at any time retire the whole or part of the money deposited.

Fourth—Once the money deposited exceeds twenty-five thousand dollars currency, or one thousand dollars silver, the depositor will be entitled every quarter on account current, according to the rules established by the Bank.

Fifth—In case the depositor loses his pass book, it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.



RIVER PLATE STEAM-SHIP COMPANY.

LIVERPOOL AND RIVER PLATE DIRECT.

NAMES OF STEAMERS.

LA PLATA,
PARANA, PARAGUAY,
URUGUAY, UNA.

One of these Steamers will leave Liverpool for Montevideo and Buenos Ayres on the 1st of each month.

Cargo will be received on board of the steamers 48 hours after their arrival, to be delivered in any part of the United Kingdom, or on the Continent, being forwarded by rail or by and steamer for account of the Company, the bills of lading being signed with these conditions.

As the object of the Company is to extend and facilitate the existing traffic between Europe and the River Plate, the rates of freight will be very moderate.

Specie and Parcels will be received until the day before the steamers leave.

The Steamer URUGUAY, now in port, will be despatched hence on the 30th inst., with a full cargo, calling at Montevideo to clear only. She has a fine large cabin on deck, capable of accommodating thirty cabin passengers, to whom Captain Smith guarantees his usual liberal treatment. These Boats are excellent opportunities for families visiting Europe, more especially when consisting of ladies and children.

For Freight and Passage apply to the Sole Agents,

HENRY A. GREEN & CO.,
85 Reconquista.
